# Siriraj Health Policy

Committed to advancing the future of healthcare through evidence-based research, innovation, clinical expertise, and patient values, Siriraj Health Policy, a dynamic unit within the Faculty of Medicine Siriraj at Mahidol University, has been on a dedicated journey since 2012.

Our modest boundaries hold a profound mission to connect the scattered dots of healthcare through positive transformation. We are initiating an evidence-based health policy conveying scientific insights to influence power dynamics and cultural perspectives, aiming to foster good health, well-being, and health equity for all.

MONITORING AND EVALUATION (M&E)**

# FRAILITY

Health Resilience Initiative

## Our Expertise

Shaping policies to address frailty and promote healthy aging for a stronger, more resilient society.

# RDU

Rational Drug Use

## Our Provisions

Advancing responsible medication use to enhance patient safety, optimize treatment, and reduce healthcare waste.

# GLOBAL HEALTH

Our research interest spans a wide range, including frailty and care for aging population, health technology assessment (HTA), rational drug use (RDU), global health, real-world evidence (RWE), health impacts of climate change especially the effects of PM 2.5, healthcare systems tailored to diverse demographics, such as monastic and LGBTQ+ communities.

## Enhancing clinical trials and economic evaluations for stronger health systems

Our achievements include groundbreaking policy recommendations on Thailand's Universal Health Coverage, such as BRCA1 and BRCA2 testing schemes, Dynamic Prosthetics Foot, and Cost-effectiveness information provided for drug selection consideration in the National List of Essential Medicines (NLEM) and the benefit packages of Universal Health Coverage.

## Our Innovation

Transforming real-world data into actionable insights to bridge the gap between science, policy, and practice.

**RWD**  
Real world evidence

## Our Engagements

Collaborating to drive equitable and sustainable health policies through evidence-informed policymaking, sustainable financing, and climate conscious strategies to address emerging global challenges and opportunities in health.

Additionally, we have contributed over a hundred influential research publications, reports, white papers, and insightful policy forums engaged in impactful community interventions, and established collaborations with national and international stakeholders to drive meaningful change in healthcare delivery and innovation, such as intermediate care, fast-track surgery and fall prevention for hip fracture, dental implant surgery, PM 2.5, care system for dementia and transgender.

**Advancing well-being and equity through evidence-based policies**

## Our Insight Circle

Backed by a vibrant team with diverse educational backgrounds, we excel in productive and creative teamwork. Our collaborative environment fosters innovation, paving the way for a pioneering approach to shaping the healthcare landscape.
